### OUR SEWERAGE SYSTEM.

Just a short time ago The Eagle was working for a sewerage system, and using as an argument that Bryan had reached its limit in development without such a system. The people were also clamoring for it. The city council, headed by Mayor Maloney, heeded the popular demand and wisely provided for the system. It was put in, and Bryan now has more than five miles of main line sewers. Its advantages in the way of comforts, conveniences, and improved sanitary conditions, are so apparent and so thoroughly recognized by all as to need no discussion.

Yet, notwithstanding the popular demand for the system, its convenience, its great aid to improved sanitary conditions, its safeguard to the public health, it is not appreciated by the people as it should be. They do not take advantage of it, and very few, comparatively speaking, have put in sewer connections. Some who were loudest in their contentions for the system have ignored it altogether. It has been an effort to get the business houses on Main street to connect up, and many have not done so yet. In the residence district it is even worse.

There is a city ordinance requiring all persons residing within three hundred feet of the line to put in connections, yet the ordinance is almost totally disregarded.

This should not be so. Our people should rise to their full duty in the premises. The city has gone to a heavy expense to put the system in, and everybody within reach should be willing to connect and pay their small monthly rental so the city would get some returns, even though it be small, on its investment.

There is still a higher reason than this why all should connect, and that is to join in with your fellow citizens in a common effort to improve the sanitary conditions of the city and further safeguard the public health.

### WILSON'S NEAREST MISTAKE.

The nearest Governor Wilson has come to making a mistake in any of his campaign speeches was when he said a certain class of persons "kick like steers." Now, what real stockman ever saw a steer kick? It is the family cow, that, troubled by flies, gives a kick that upsets the milk bucket and spills all the chances for cream and butter.—San Antonio Express.

Now you're shoutin'. This editor knows all about a kicking cow. We have lately had an experience that will last us the rest of our days. "Maud" was not in it; she was a kicker from Kickersville. And as a switcher, she was equally effective. She could give her tail a few twirls, like a baseball pitcher when he winds himself up, and then lam us on the side of the head, bringing out the sun, moon and all the starry heavens. With one breath she batted the boards off the roof with her heels, and the next she knocked us cold as a wedge with her tail.

The blow, however, that killed father was when she dipped her tail in the milk bucket, on the order of a barber's shaving brush, and then gracefully and tenderly entwined it around our neck seven times. This was the last straw, and ye editor and the "loving kine" have parted company for aye and aye.

The democrats have been sniffing the air for pie for lo these many years, but now they can actually smell them. They are baking in the oven and the rich aroma that oozes out and permeates the atmosphere is glorious.

The republicans and bull moopers combined just did beat the democrats in Maine. With Teddy and Taft both running in the general election, just imagine what old Woodrow Wilson will do to them.

Some people seem willing to live in the dirt and dust, and pull and tug over muddy roads all the days of their lives, in contemplation of the golden streets of Paradise.

The Galveston Tribune, noted for prognosticating weather that never comes, now announces that it will rain—some day.

### POINTED PARAGRAPHS.

Suspicion is the fly in the matrimonial ointment.

Many a man has a kick coming that never reaches him.

If you would retain your friends, don't give them away.

More men might get to the front if they didn't stop to talk.

The Wall street "bulls" have tossed many a man over the wall.

Even the man who doesn't lie never tells all the truth he knows.

The world hasn't much use for the man who takes pride in his humility.

Occasionally a woman drives a man to drink, but usually he beats her to it.

The average man is always butting in and adding to his collection of enemies.

Horses are fed on oats and hay; nightmares are fed on wild oats and Welsh rabbit.

It is a great deal better to be disappointed in love than to be disappointed in marriage.

Nearly every shiftless man has a horseshoe nailed over his door—that is, if he has a door.

Many a girl marries a man not because he is good enough for her but because he is too good for her rival.

About the time a man is old enough to have acquired fairly good sense his neighbors begin calling him an old fogey.

## THIS DAY IN HISTORY

September 11.

1609—Henry Hudson arrived in New York harbor.

1689—Famous treaty of partition was signed at the river Kerbecchi between China and Russia.

1771—Mungo Park, the celebrated Scottish adventurer, born.

1782—Grand attack on Gibraltar by the Spaniards.

1790—Turks defeated in Codgia Bay by the Russians.

1795—English defeated the Dutch at the Cape of Good Hope.

1839—Don Carlos abandoned Spain and retired with his family into France, by which the long-protracted civil war in Spain was regarded as at length closed.

1874—Serious strike threatened in New England cotton mills.

1904—Russian Baltic fleet leaves Cronstadt for the Far East.

1909—Pellagra discovered in Macon, Ga.

1911—Maine voted on the proposition to repeal the prohibition clause in the state constitution, leaving the result in doubt.

The Republic of Portugal was recognized by Great Britain, Austria, Germany and Spain.

Dallas.—The building permits issued during the month of August in this city reached a total of \$623,098.

The total permits issued during the last week in the month were \$313,745.

### SKY PIECES

That will soon be skimming around town over the heads of young men who always wear the latest models.

They'll do a spiral glide here to get them when they observe the "dash" and style to every block that leaves our hangar.

You can bi-plane conservative styles or the most extreme novelties of the season—that soar 'way above the average hat in quality.

The new velours and rough effects in novel Fall Mixtures

See Our Window display.

\$3.00, \$4.00 & \$5.00

Austin.—The Bioscope company has opened offices in this city and will manufacture picture films and operate a regular company of actors. It is the intention of the company to utilize the excellent scenic panorama in this section of the state as a background for plays of a Western character. Later on a weekly picture service of important happenings in Texas will be installed and the films will be shown in all parts of the world.

## TEXAS INDUSTRIAL NOTES

(By Commercial Secretaries.)

Dallas.—During the month of August the total postoffice receipts for Dallas were \$63,000.12, as compared with \$56,571.25 for August of last year, an increase of \$6,428.87.

Pecos.—Work will start in October on the giant dam for the Consolidated Mutual Reservoir, Irrigation & Canal Company, at Grand Falls. The project will mean the expenditure of \$400,000.

Van Horn.—The Trans-Pecos Valley Land Company of Minneapolis, Minn., has been granted a permit to do business in Texas, with headquarters in this city; capital stock \$500,000.

Francitas.—The total taxable value of Jackson county is reported by the tax assessor amounts to \$9,436,090, as compared with a total value of \$9,211,225 last year, an increase of \$224,865.

Plainview.—The Harvest Power Mill has shipped 190 cars of wheat, flour, meal and chops so far this season. The mill furnishes flour to the plains country and a large part of New Mexico.

Waco.—More than twice as much cotton has been received in this city up to September 1 as had been received at the corresponding date last year. The receipts for this year are 4505 bales, as against 1786 bales last year.

Rusk.—The Young Men's Business League is promoting sentiment in favor of building a good road from Rusk to the Atty Valley, a distance of ten miles. The road will traverse a rich farming territory in the Iron Mountain district.

Toyah.—A large land sale was consummated here recently when Oklahoma capitalists bought 6400 acres of land in the Toyah irrigated fields near this city for \$65,000. The purchasers contemplate sinking shafts for water and will cut the land up into farm tracts.

Bowie.—Over 150 cars of peaches were shipped out of this vicinity this season. The Early Wheeler peach led all other varieties, over forty-six cars of this product being transported. The prices have been rather low, but the large volume brought the growers a good profit.

Wellington.—According to the tax rolls the assessed valuation of Collingsworth county for 1912 is \$2,770,372, an increase over the preceding year of \$66,456. The rolls show there are 27,350 head of cattle, 6459 horses, 1053 sheep, 7575 hogs, 143 goats, 41 jacks and 860 vehicles.

Fort Worth.—According to a report of the city auditor and collector, the assessed city values for 1912 of both real and personal property are \$62,451,780, an increase of \$2,219,654 over the previous year. Realty is assessed at \$44,643,715. The tax rate is \$1.93 on the \$100 valuation.

Greenville.—A. R. Nicholson, promoter of the Blue Ridge interurban line, has closed a contract for ties, timber and wrestle work on the interurban and expects to finish the work on the twelve miles from Anna to Blue Ridge by October 15, and will then start the grading toward Greenville.

Sherman.—The North Texas Female College has opened with an enrollment of 600 students. Among the new instructors this year is Prof. St. Guilli of Rome, Italy, who will have charge of the musical and concert courses at the college. Sita De Oyasabel of Madrid, Spain, will have charge of the classes in Spanish and French.

San Angelo.—Work is being rushed on the Orient extension from Givlin to Alpine with all the speed possible. Several cars of steel rails have arrived and these are being rushed to the front. Many men are employed. The Orient officials are hopeful of having the connection made with the Southern Pacific before the first of the year.

Alpine.—Notwithstanding the crop of the candlelilla plant here this season is larger than it has ever been before there will not be enough to supply the demand. A new factory for the manufacture of this plant into wax, which is used for phonograph records, electric insulation, all kinds of leather and wood polishes, floor waxes, and candles, will be built at San Antonio. This will be the fifth factory of its kind in Texas, the others being at Alpine, Sierra Blanco, Marathon and Taylor.

## TEACHER OF PIANO

S. L. BALL, Jr.,

Will resume teaching piano, harmony and history of music on September 16th. Your patronage solicited. Former pupils my best reference.

## Repair Shop

Gunsmith, Locksmith, and Bicycle Repairer

Dealer In

Bicycles, Bicycle Sundries and Gun Supplies.

We Place on Baby Buggies Rubber Tires

**Walter Winter**
